

**Need to inform your colleagues, partners or customers during your activity?**

We have the answer that fits your needs; **L2TV** is the best, easy to use and cheapest video solution.

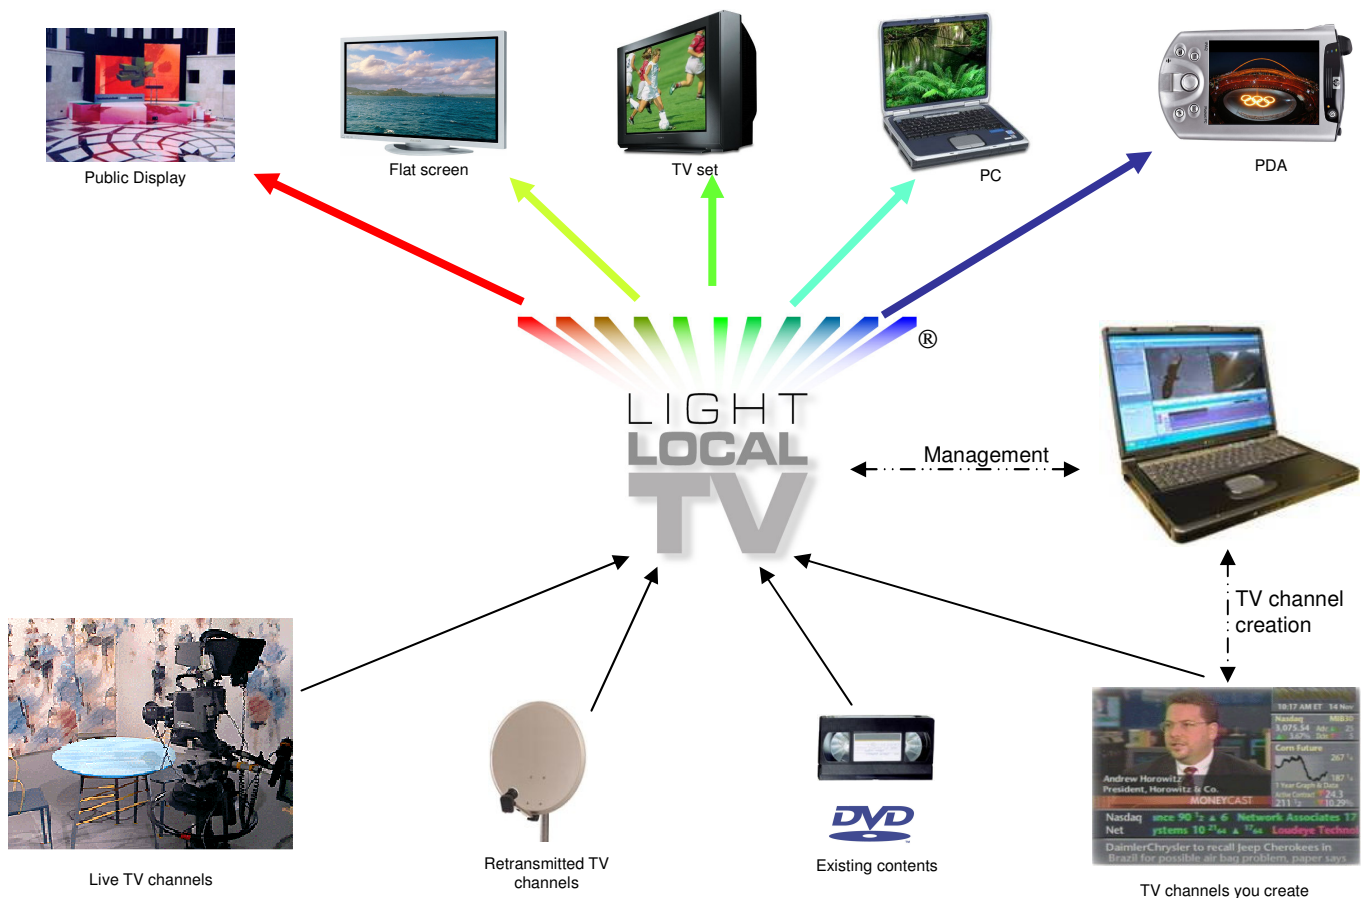

Light Local TV is perfectly adapted to local communities, major companies, technological and leisure parcs, ski resorts, or any other community.

It allows to broadcast different TV or information channels with various contents such as:

- The TV channel you have created with our tools and with your existing multimedia contents (videos, Web page, text, ...),
- live local information
- TV channels from satellite, DTT, or hertzian,
- and any other available information.

Your information becomes available on any support such as : flat screens, TV sets, PCs, public display screens, PDAs ....

**And everything can be remotely managed.**

L2TV is a turnkey field proven professional solution; it has been designed for non professional. It's user friendly design, operation and management tools require no specific skills and enable easy operation.

### Standard package Composition :

Platinum Pack : 8 channels	<p>The 4 premium pack channels, plus:</p> <ul style="list-style-type: none"> <li>▪ Your local News channel broadcasted with a delay-time</li> <li>▪ One additional live channel</li> <li>▪ 2 additional retransmitted channels of your choice</li> </ul>

If you also want to build your own package, please contact us

### Additional functions :

- **Customizable mozaïc** : with the channels you have chosen or an automatic selection of the last 9 most viewed channels.
- **Time Delayed broadcast** : broadcast with a dedicated time delay (i.e : one hour delay) so that audience can watch again previously broadcasted programs.
- **Interactive voting** : allows you to organise polls on your TV shows or interactive games.
- **VCR on live channels** : provides VCR capability on live channels: at any time the viewer can pause, rewind....and go forward to catch up the live again.
- **Contents security** : limit access to the contents only to authorized people.
- **Generate new revenues** : Enable to include ads and paying information that will generate revenues.
- **Content Library** : your created contents are automatically stored and can be reached at any time and wherever you are.
- **Remote security access** : you can give encrypted access to the contents stored through Internet (ADSL for example).
- Wireless set up optional configuration to deploy **L2TV** where no wired network exists.

**And many other future evolutions that we'll share with you.**

L2TV solution uses the existing computer network and hardware (subject to prior expertise by our technicians).
